## NEWEST ADDITION TO AZON

### New solution from Azonpriner PRONTO UV<sup>TM</sup>

Azonpriner has recently put on the market a new solution to their DTF family – Azon Pronto UV. Film is self-adhesive, and it uses two types of film in the process. First it is printed on one film, and afterwards it is finished with the use of laminating machine applying the other film onto the print out. In the end, the films are separated manually, and the print out is applied to any kind of surface of any shape, and it is water resistant.

It can be widely used for label display of wines, cosmetics, boxes and other products. The film printed with Pronto UV has excellent physical and chemical properties such as alkali resistance, abrasion resistance, tear resistance, corrosion resistance, sun resistance, and oxidation resistance, which is better than traditional stickers such as waterproof paper, art paper and aluminized paper.

## NEWEST ADDITION TO AZON

### SUBSTRATE

PRINT AREA: 28 x 112 cm / 11,69 x 44,09 inches

ACCEPTABLE MEDIA: 29,7 x 112cm / 11,69 x 44,09 inches

MATERIAL TYPE: TRANSFER FILM

### PRINT

PRINT TECHNOLOGY: Ink-jet [On-demand piezo]

DROP SIZE: Variable drop size 3,5-20 picolitre

PRINT RESOLUTION: 720dpi, 1440dpi

SPEED: A4 Size @ 720 dpi 8 min 30 sec

### INK

TYPE: AZON TURBOJET EN71-3 U-INK

CURING: HEAT PRESS / TUNNEL (150°C for 20-30 sec)

COLORS: CMYK / WHITE

SUPPLY SYSTEM: 500ml INK TANKS / White ink circulation [ACT]

### SOFTWARE

RIP: AZON RIP

### OPERATIONAL ENVIROMENT

TEMPERATURE: +15°C to 30°C / 59F-86F

HUMIDITY: 35-65% RH (non-condensing)

### POWER CONSUMPTION

PRINTING: 20W

READY MODE: 10W

SLEEP MODE: 4W

POWER OFF: 2W

### CONNECTIVITY

USB

### ASSEMBLED DIMENSIONS

LENGTH: 73 cm / 28,74"

WIDTH: 89 cm / 35,03"

HEIGHT: 26 cm / 10,23"

WEIGHT 28 kg / 61,72 lbs

# PRONTO UV™

NEWEST ADDITION TO AZON DESKTOP

## TURBO JET INKS

Azon DTF inks are specially developed to ensure vivid colors and maximum fastness on almost any textile and more.

- Highest health standards
- Vivid colors

## COST EFFECTIVE, LOW MAINTENANCE

Azon PRONTO UV™ is carefully designed to reduce maintenance to a minimum. With Azon RIP software each print will be produced in a quality way beyond any competition, but still every aspect of the print will be optimized in order to make it cost effective.

- Low Maintenance
- Super low power consumption
- Self preservation function
- Lower print cost
- Plug & play

## WIDE RANGE OF PRINTING SUPPLIES

Azon PRONTO UV can be used on special films and canvas

- Two types of film in the process (A and B foil)
- It has a possibility to print in mat and varnish variant
- With the help of laminator machine that uses heat to enable adhesion of the printed-out film to a sticky surface onto a much lighter and more flexible film

## CONTI INK SYSTEM & CIRCULATION

Handling the inks was never been easier, fast, clean and simple. Azon CONTI™, continues ink supply, allows for the printer to be refilled with ink during the printing operations which translate to zero time loss during the refill.

- 500 ml bulks with
- Built in white ink circulation
- Azon CONTI™
